

Residential Homestead Exemption Form – (New Requirements)

The Texas Legislature enacted changes to residence homestead applications beginning September 1, 2011. These applications must now be accompanied by a copy of your Texas driver's license or Texas ID Card **and** a copy of your vehicle registration form with the same physical address as the address on the homestead application. **Remember all three documents must have the same physical address.** If you don't own a vehicle, you must complete a Non-Ownership of Motor Vehicle Affidavit and provide the District with a copy of a utility bill with the same physical address as the homestead application address.

House Bill 252, passed in the 82nd Regular Session, mandates that these items must be submitted along with the application in order for the exemption to be granted.

Please contact our office at 979-774-4100 if you have any questions concerning this matter.
